THE MISSOURI STATE CONVENTION.

Message of the Governor-The Financial Condition of the State, &c. JEFFERSON CITY, Mo., June 2, 1862.

The State Convention met in the Representatives Hai, at noon, President Wilson in the chair. There not be, ing a quorum present, it adjourned till five P. M. When the Convention re-assembled and proceeded to business there were eight members more than a quorum pre-

A communication from the Governor was re A communication from the Governor was re-ceived and read. He reviews the history of the State affairs for the past year in detail, espe-cially in reference to the provisional government, in enisting and supplying troops, and presses the obliga-tion the State is under to the general government for the promptness and liberalty with which its wants have been supplied. There have been issued to disbursing icers \$720,000 in State defence warrants, and a further count of \$55,000 will have to be issued; \$100,000 have counties. The depreciation of this paper the Governor attributes to interested parties, but gives assurance that t is receivable for taxes, and in one year will all be of bank stock, and the debt will be assumed by the general government. The provisional governent began with an empty treasury. The State credit as gone, because the interest of our debt was not paid. riffs resigned rather than collect taxes, and even only forty-one counties have returned tax books 1861; and out of \$640,220 due from them, only 53,386 has been paid in. From seventy counties not eard from, the amount due is very large, but officers e finding it more easy to make collections, and, alto-ther, the condition of things is not worse than when e present authorities received control of the govern-ent. The bondholders will hardly expect the July State to pay ultimately. The appointments to fill county offices, made vacant by the incumbents refusing to to the oath of allegiance, have generally been accepta-in most parts of the State courts of justice are urbance and crime are perpetrated under the name guerilla warfare." A sufficient force is now ready er, to compel the cossation of such outrages cops hostile to the people and institutions of this State ave been supplanted by home volunteers, who will be nable. The praise of securing peace and prosperity will be due, under the Providence of God, to iotism and wisdom of the Convention. Much res to be done, and nothing must be allowed to distract attention and energy of all classes of the people from means heretofore employed. The Governor is doubt-as to the wisdom of electing members of Congress en months before taking their seats, as questions come up for consideration different from those on dation on the subject. As to the ordinance, passed and for the ratification of the provisional government, which was postponed till the coming August, he submits whether it should not be annulled, in view of the fact that 30,000 citizens are absent from the State as volunan eath of loyalty for the qualifications of voters, he sub-mits the question without recommendation, although he thinks the State ought to be protected against the influence of those who have been recreant to its interest. Resolutions were passed authorizing the President to

appoint committees on Congressional districts, on elec-tions, elective franchise, finance, militia, and a State

emancipation will be voted out of a consideration in the Convention, while others are sanguine that the Presi-All seem resolved on stringent measures against allow ing active secessionists to vote at the approaching elec-

and referring to the proper committee resolutions re-lating to the various subjects before the Convention.

Committee on Elections this afternoon determined report in favor of repealing the ordinance passed at we attom to the people for ratification or rejection, and against holding an election for State officers until the term for which Claib. Jackson was elected expires (in 1864). They have not yet determined in regard to the ection for members of the Legislature.
